Docket No. CP2018-155

Public Representative Comments on USPS Request to Add
Priority Mail Express Contract 61 to the Competitive Product List

(January 10, 2018)

I. Introduction

The Public Representative hereby provides comments pursuant to the Commission Notice initiating this docket.¹ In that Notice, the Commission established the above referenced docket to receive comments from interested persons, including the undersigned Public Representative, on the Postal Service's request to add Priority Mail Express Contract 61 to the competitive products list.²

Under 39 U.S.C. § 3642(b) the criteria governing Commission review are whether the product (1) qualifies as market dominant, (2) is covered by the postal monopoly and therefore precluded from classification as a competitive product, and (3) reflects certain market considerations, including private sector competition, the impact on small businesses, and the views of product users.

Pursuant to 39 U.S.C. § 3633(a), the criteria for the Commission's review are that the Postal Service's competitive prices must not result in the subsidization of competitive products by market dominant products; ensure that each competitive

product will cover its attributable costs; and, ensure that all competitive products collectively contribute an appropriate share of the institutional costs of the Postal Service.

II. Comments

The Public Representative has reviewed the Postal Service's Request, Statement of Supporting Justification, Governors' Decision, contract, Certification of Compliance with 39 U.S.C. 3633(a), and the Postal Service's proposed revised changes to the Mail Classification Schedule (MCS). The Public Representative has also reviewed the supporting financial models for the contract filed separately under seal.

The Postal Service makes a number of assertions that address the considerations of section 3642(b). Request at Attachment D. These assertions appear reasonable. Based upon that review, the Public Representative concludes that Priority Mail Express Contract 61 satisfies the criteria of section 3642(b), concerning the classification of new competitive products.

Based upon a review of the financial model and the contract filed under seal with the Request, it appears that the negotiated prices should generate sufficient revenues to cover costs during the first year of the contract, and therefore will comply with the requirements of 39 U.S.C. § 3633(a). The contract is expected to remain in effect for a period of three years. The Postal Service provides no evidence to demonstrate that the contract will comply with the requirements of 39 U.S.C. § 3633(a) during the second and third years of the contract. This concern is largely mitigated by the fact that the terms of the contract provide a formula for an annual adjustment in the contract prices that should permit revenues to cover costs during years two and three. The Commission also has an opportunity to conduct an annual compliance review in its Annual Compliance Determination.

The Public Representative respectfully submits the foregoing comments for the Commission's consideration.

Natalie R. Ward
Public Representative
